Gary Moyer to Assist Severn Trent Management Services with Florida CDDs

Key architect of Florida's Chapter 190 to assist Severn Trent in establishing, developing and managing community development districts.

FORT WASHINGTON, Pa. – June 11, 2007 – Severn Trent Services has announced that Gary Moyer will work with Severn Trent Management Services in a full-time consulting capacity. In this role, Moyer will assist in reacquiring districts formerly managed by Severn Trent by leveraging relationships established over his three decades in the Florida community development district (CDD) market. In addition, he will share his extensive management experience with Severn Trent's district managers who currently serve more than 100 district clients throughout Florida. Moyer assumed his role effective June 1 and works from Severn Trent's Celebration, Fla. office.

Moyer began his development career in 1973 and played an integral role in the drafting and passage of legislation enacted by the Florida Legislature in 1975, as well as Florida's Chapter 190 Uniform Community Development District Act of 1980. In 1982, Moyer established a professional association for the purpose of providing managerial services to units of local government, specifically special purpose districts that provided infrastructure facilities and services to new communities. In 1998, the firm was acquired by Severn Trent.

"We are pleased Gary has chosen to return to Severn Trent. With his experience and track record, Gary could have pursued any number of avenues with great success," remarked Dana Kaas, vice president, Contract Operations. "By selecting Severn Trent, Gary's actions speak to our shared philosophy and vision of CDD management services. Current and future clients can be assured Severn Trent is the right partner for their district management needs."

About Severn Trent Management Services

Responsible for establishing, developing and managing more than half of Florida's existing special purpose districts, Severn Trent Management Services currently serves more than 100 districts with combined annual operating budgets in excess of \$200 million. With six offices strategically located throughout Florida, Severn Trent Management Services provides administrative services, fiscal management, compliance and records management and field services.

About Severn Trent Services

Severn Trent Services (www.severntrentservices.com), with global headquarters in Fort Washington, Pa., is a leading supplier of water and wastewater treatment solutions. The company's broad range of products and services is concentrated around disinfection, instrumentation and filtration technologies, contract operating services and state-of-the-art residential metering products and services. Our analytical services group is the UK's leading environmental testing organization, and our international management services business provides support in all aspects of water and wastewater utility operational development and business transformation. Severn Trent Services is a member of the Severn Trent Plc (London: SVT.L) group of companies. Severn Trent is a FTSE 100 company.
