Severn Trent – North America Renews Contract for Pasadena, Texas Wastewater Operations and Maintenance Contract

Horsham, Pa. – September 12, 2016 The City of Pasadena, Texas and Severn Trent – North America have agreed to a ten year renewal of their operations and maintenance contract for its wastewater treatment facilities. The contract, which has a total value of approximately \$39 million, includes responsibility for two wastewater treatment plants with a combined capacity of 24 million gallons per day (mgd). Severn Trent, which has operated the facilities since 1994, will continue to provide wastewater services to approximately 150,000 residents, treating approximately 5.73 billion gallons of wastewater per year.

“We are pleased that the City of Pasadena has once again entrusted us with providing their wastewater services,” said Stephane Bouvier, CEO of Severn Trent – North America. “I am confident that our operational and management expertise will continue to benefit Pasadena, as it does over 200 other cities and municipalities across the United States.”

Pasadena is just the latest in a successful series of contract renewals or extensions that Severn Trent has secured thus far in 2016, including:

- Gilbert, Arizona: Operations and maintenance of the 11 mgd wastewater treatment plant, extended at a total value of \$3 million.
- DeSoto County Regional Utility Authority, Mississippi: Operations and maintenance of four wastewater treatment plants with a combined total capacity of 9.5 mgd, as well as the collection system and 12 pump stations, renewed at a total value of approximately \$920,000.
- West Harris County Regional Water Authority, Texas: Operations and maintenance of the 28 mgd water treatment plant, as well as the distribution system and booster station, renewed for one year at a total value of approximately \$720,000.
- McComb, Mississippi: Operations and maintenance of the 5 mgd wastewater treatment plant and pump station, renewed for five years at a total value of over \$3 million.
- Ft. McDowell - Yavapai Nation, Arizona: Operations and maintenance of the 0.325 mgd wastewater treatment plant, five wells, the collection and distribution systems, including 43 pump stations and two booster stations, renewed for five years at an annual value of over \$2.5 million.
- Coushatta Tribe, Louisiana: Operations and maintenance of the tribe’s 0.8 mgd wastewater treatment plant and two pump stations, extended for a total value of approximately \$450,000.
- Red Rock Utilities, Arizona: Operations and maintenance of the 0.3 mgd wastewater treatment plant and meter reading, renewed for five years at a total value of over \$1.25 million.
- Crandall, Texas: Operations and maintenance of the 0.9 mgd wastewater treatment plant, renewed for five years at an annual value of over \$1 million.
